SIV FIRE PROTECTION LTD

Environmental Policy

SIV Fire Protection Ltd realizes the importance of protecting the environment while operating. We will comply with all applicable environmental legislation, regulations and relevant codes of practice on all sites and works. The Company will encourage all our partners, sub-contractors and clients to join us and adopt our environmental practises.

SIV Fire Protection Ltd recognizes our main areas of impact as:

- Waste generation
- Energy use
- Transport use
- Water use
- Procurement

We will strive to:

- Adopt the highest environmental standards in all areas of operation, meeting and exceeding all relevant legislative requirements.
- Assess our organisational activities and identify areas where we can minimise impacts.
- Minimise waste through careful and efficient use of all materials and energy.
- Purchase sustainable products wherever feasible.
- Publicise our environmental position.
- Train employees in good environmental practice and encourage employee involvement in environmental action.
- Aim to include environmental and ethical considerations in investment decisions where appropriate.
- Continually assess the environmental impact of all our operations.

Through continual striving to improve standards, our careful monitoring of every project enables us to maintain consistent standards and protect the environment wherever we work.

SIV Fire Protection Ltd will endeavour to review and update the Environmental Policy on a regular basis to ensure that it accurately reflects our environmental impact and objectives.
